Subject: FW: M6H1-Harvey Response--- Remedial Branch update for morning 9/5/17 report

Date: Monday, September 04, 2017 11:29:01 PM

Attachments: Hurricane Harvey rapid response and inspection sheet 9-5-17 AM report.xlsx

So I sent you Sam's presentation which has the slide of 41 sites, 11 requiring follow-up. The slide also states the inspections are: 5 inspections on 9/4 and 6 inspections on 9/5.

The above table shows that 5 inspections were completed and no follow up required on the 5.

This is the information I have. I'll also send John Meyer's inspection plan to you next.

Our PSC will send you bullets tonight after she finishes draft update for in the morn.

She will also check with Monica to see if there is additional information on construction completions and "unrestricted" use.

Hope this helps. susan

Please see the remedial branch update. Please use this table for the evening report. It has the updated list of 43 superfund sites and the updated status for inspections completed. Three teams are in the field working to complete the inspections. As they complete the inspections, updates are being provided.
